I joined the club back in 1998 and have been active in the community ever since. Watching the MES evolve and change over the years, and seeing the drive towards creating a safe accepting place for all people in the community has inspired me to step forward and apply to be a board member to continue the momentum. It would be my honor to assist in guiding the MES forward and continue the culture of acceptance and good sportsmanship.

I grew up in this club and met the love of my life here, it will always have a unique place in my heart. I have seen the great progress made in the past couple of years through open communication and cooperation between the board and the ST and Coordinator chain. In spite of these great strides forward I still think we have further to go, I have observed members tear each other down and continuously assume the worst of our STs, our coordinators and our fellow members.

I want to help our members remember there are people on the other side of that computer screen, attacks on social media are not a victimless crime. It is my hope that I can continue to drive the club to a more positive environment. We are a small community who suffers enough misconceptions and scrutiny without attacking each other.

My family often makes jokes about I have a friend to visit in every state. I would have never had this opportunity without the MES. This club has given me so much over the years from life long friends and opened my eyes to ideals that as a backwater country girl I would have never had otherwise. I want to give back and ensure the club is here to support the next generation of gamers.

Have been a member for the prior 36 months from the end of application period.

My membership has been active without lapse for more than 36 months.
