owen.camarilla@gmail.com

OBJECTIVE

Provide the membership with the best, and safest, possible environment to explore all of the LARP venues through the development of initiatives, policies, and directives that foster the community internally as well as externally. Collaborate with the Board of Directors to collectively grow, and maintain, Mind's Eye Society as an organization that is fiscally stable, socially responsible, and community driven.

MIND'S EYE SOCIETY EXPERIENCE

10/2016 – Current Secretary to the Board of Directors

- Generate Agenda and Meeting Minutes for the Board of Directors
- Manage National Officer Prestige Awards
- Review and respond to inquiries through the MES ticketing system and email.
- Provide feedback and support to the Board of Directors as needed.

06/2016 – 12/2016 Assistant National Storyteller: CoD Project Lead

- Collaborate with the NST and RSTs to scope out requirements for the next CoD 2018 Chronicle.
- Foster constructive conversation between the NST staff and other participants.
- Assist in identifying and prioritizing key creative requirements for the 2018 Chronicle.
- Explore options concerning story, staff structure, systems, and tools.

02/2016 – 05/2017 Assistant National Technical Administrator: Systems Lead

- Working with AWS as necessary to help manage development / systems.
- Reviewing existing software elements for areas where we can improve.
- Prioritizing operations related tickets.
- Develop DevOps processes and procedures and allow for scalability.
- Assist with designing out our internal facing monitoring tools.

10/2015 – 05/2016 MES National Convention Registration Lead

- Gather necessary storyteller requirements to be captured at Registration.
- Maintain a professional communication line with the Event Staff.
- Provide monthly reports documenting registration growth and providing key metrics such as registrants by Region, Player totals per venue, and Registrant totals by Registration type.

10/2014 – Current Assistant Regional Coordinator: Investigations, East Central Region

- Lead and coordinate all investigations within the East Central Region.
- Maintain a professional communication line between members during an investigation.
- Provide investigation report and recommendations to the East Central Regional Coordinator.

11/2010 – 08/2011 Assistant Regional Storyteller: Awakening, South East Region

- Lead and managed the coordination of Awakening stories and plots across the South East Region to include over 20 different Domains and Chapters.
- Developed a long term plot line that culminated at the South East Regional Event in 2011.
- Lead Storyteller for the Awakening venue during the 2011 South East Regional Event; coordinating a team of five storytellers and 50 players.

07/2009 – 05/2011 Venue Storyteller: Awakening, FL-046-D, South East Region

- I established the definitive background for the Domain within the Awakening Venue.
- Increased player attendance through engaging storylines and dark themes.

01/2007 – 04/2008 Domain Coordinator, FL-037-D, South East Region

- As the Domain Coordinator I managed two separate Chapters within the Domain.
- I coordinated with local retailers to provide game space and support for our Domain. My arrangement with the store owner ensured game space, at no cost to the Domain for as long as the store remained.
- I successfully increased membership for the entire Domain through local meet-ups and hobby gatherings.
- I established yearly charity donations to various local organizations including Abuse Counseling & Treatment centers for abused women.

DISCIPLINARY ACTIONS

I have never received any disciplinary actions during my time in the Camarilla or Mind's Eye Society

REAL WORLD EXPERIENCE

05/2016 - Current Information System Security Architect, U.S. Department of Defense

- Develop new methodology for design and acquisition of secure enterprise architecture.
- Provide cybersecurity observations, affirmations, and recommendations to project and program managers across the U.S. Government.
- Coordinate and lead security engineering teams across the U.S. Government to design and assess security architecture.

09/2012 – 05/2016 Computer Network Defense Analyst, U.S. Department of Defense

- Managed and coordinated incident response activities within high-value government agencies.
- Coordinate and direct computer security operations across multiple, international, customer locations.
- Lead multiple teams of analysts, simultaneously, to conduct both, on-site and remote security assessments; to include all post-assessment analysis and reporting.
- Develop and implement operational policies and processes to enable effective and efficient computer security operations.
- Identify and capture operational metrics to provide senior leadership with actionable information on the status of operations

EDUCATION

06/2014 Masters of Information Assurance & Security, Norwich University

- Participated in Leadership Conference
- Dean's List 2013
- Conducted a security and IA policy assessment of a live organization
- Developed IA, Security, and CERT policies that were successfully implemented

In Progress Doctor of Science in Cybersecurity, Capitol Technology University
